**Attention all BSW/MSW students:**

**The School of Social Work uses a list-serve to send email messages.** Students are added to the list-serve at the beginning of every semester. If you receive an email stating that **“You have been deleted from the list-serve”** this is the result of your email being over quota and the system has automatically deleted your email address. **You do not have to call the School** as you will be added to the list-serve at the **beginning of the next semester**. Students should **check their email every week** and delete old emails to ensure they are not removed from the list serve because of this **automatic process**.
