

# SOCIAL WORK MENTOR PROGRAM

The Social Work Mentor Program was born from a sense of responsibility to nurture the next generation of highly regarded social work professionals and prepare them for successful completion of the social work licensure exam. Through a mutually beneficial young alum to experienced alum mentorship relationship, recent graduates will have the opportunity to apply their classroom instruction and real world experience to the licensure exam preparation process. Throughout the program, mentees will participate in informative sessions lead by social work experts on subjects including understanding the exam process, managing test anxiety and exam preparation. Mentors will share information about their own license exam experience and career paths while providing guidance, motivation, and emotional support to mentees. Mentors will assist mentees with setting licensure exam preparation goals and developing a network of professional contacts. The Social Work Mentor Program gives graduates a vision for the future that includes successful attainment of a social work license.

- Give back to Wayne State with a minimal time commitment
- Recruit fresh talent to your company
- Inspire students to pursue their dreams
- Stay connected to what today's students are learning
- A unique opportunity to connect with fellow alumni
