

WAYNE STATE UNIVERSITY STEAM CHALLENGE

Do you have an idea that can
improve the lives of Detroiters?

Is it worth \$12,000?

STEAM Challenge Kickoff Orientation

Tuesday, October 29 | 3-5 PM

Student Center - Room 285

Refreshments provided

The WSU STEAM Challenge brings interdisciplinary student teams together to pitch ideas that solve real problems in Detroit and beyond. Teams will identify a real-world problem or issue and suggest an idea for a project-based solution that uses an interdisciplinary approach.

This year's theme is *Innovating Change and Developing Solutions towards a Just Society*.

You don't need a team or even an idea to join us for the kickoff - just an interest in competing for a share of \$25,000 in prize money and a passion for making positive change. For more information and a list of FAQs, visit steamchallenge.wayne.edu.
