Join us for this important webinar designed to help would-be and existing social entrepreneurs better understand the legal entity options available for starting, growing and scaling social ventures. Experienced attorneys will guide you through various entity structures including for-profit, nonprofit and hybrid models and discuss key variables in decision-making so that your venture can achieve maximum social impact. Please note that legal entity structures differ by state and this workshop is open to a national audience so the information provided will present a general overview of entity structures not specific to any particular state.

Presenters:
