

Dear School of Social Work General Scholarship Fund,

I am extremely grateful for your giving spirit, and humbly accept The School of Social Work General Scholarship Fund. Being a social worker has been a lifelong goal of mine, and I wholeheartedly believe that every person in need deserves access to good quality social services. Unfortunately, people in underserved communities are at a disadvantage because of a lack of funding for necessary resources. Although I have had to overcome many obstacles along the journey of my career path, helping people become a success through the assistance of a great social worker has to be my biggest motivation. Together with the faith I have in my ability is what gives me the strength to press onward no matter what is ahead.

I admire the School of Social Work General Scholarship Fund's dedication to assisting students like myself in the pursuit of our dreams, and I plan to offer more underserved people great resources with the same passion and dedication. I want the people I serve to know that I have their best interest at heart and only desire the best for their future as well. Too many people face seemingly overwhelming barriers in their home, lives and environment. Therefore, it is my goal to ensure that quality service from a compassionate social worker is readily available to everyone.

The School of Social Work General Scholarship Fund award is allowing me to continue receiving a first class education at Wayne State University, which puts me a step closer to achieving my goals.

Sincerely,

Monique Yelder
