Tuesday, November 27th | 12-1pm | Webinar Link sent with RSVP

In this webinar we will review different models of integrated health care and methods for increasing integration in service systems. Recent research on integrative practices will be discussed, as well as methods for increasing integration within treatment systems and practices. The ways in which individual healthcare providers may increase integration of services will also be considered.

CEs are available, RSVPs are required by Tuesday Nov. 20th
