4) What are the areas (i.e. tas	ks, skills) in which the student requires additional knowledge?
Field Ins	tructor Assessment of Student Competencies

Field Instructor Assessment of Student Competencies Rating Scale

Ratings are distinct for each semester; they are not cumulative. Under each competency, specific practice behaviors are listed, along with specific measures for evaluating student performance.

This form may be personalized by adding comments after each section. If any item within a section has been rated either **Exceeds**, **Does not meet or Marginally meets Expected Competency**, a specific comment must be included regarding that item in the area provided. In addition, strengths,

achievements and initiatives shown by the student in the performance of his/her assignments and work contacts should be noted in the comment sections or narrative summary.

The Rating Scale is:

- **(4) Exceeds Expected Competency**: The student demonstrates knowledge and ability above the criteria set for each practice behavior.
- (3) Meets Expected Competency: The student demonstrates both ability and knowledge which meet the basic expectations as listed in the criteria for each practice behavior.
- (2) Marginally Expected Minimum Competency: The student requires intensive redirection. The student demonstrates effort but has difficulty in achieving required expectations for each practice behavior.
- (1) Does Not Meet Expected Competency: The student is unable to perform even minimal tasks and does not demonstrate an understanding of the theoretical base of materials.
- (0) Not Applicable/No Opportunity: Student has little or no opportunity to engage in task.
- I. Core Competency: Demonstrate Ethical and Professional Behavior
